## GROUT FILM REMOVER

Ideal for removing grout and mortar residues leftover from tiling and grouting.

### PRODUCT OVERVIEW

- Grout film remover is ideal for removing grout and mortar residues leftover from tiling and grouting.
- Mild acids and surfactants dissolve and emulsify difficult to remove residues.
- Ideal for use on glazed and unglazed ceramics, and any acid resistant stone.

### SURFACE PREPARATION

- Always test a small hidden portion of the substrate before use, to ensure the final result is satisfactory and no damage has occurred to the surface.

### APPLICATION

- Apply a saturated coat to the area and leave to activate/dissolve the grout for 1 to 5 minutes.
- Agitate the surface with a brush or scotch pad. Rinse away residue with clean warm water.
- If the area still appears to be contaminated, repeat the process until no residues remain.
- Do not leave on the surface for long periods of time and do not let the product dry out.

### CLEANING OF EQUIPMENT:

Remove as much excess product as possible and clean tools and equipment immediately after use with soapy water.

### STORAGE

Keep out of reach of children.

Keep in a dry place between 5°C and 30°C in the original container.

### IMPORTANT / LIMITATIONS

DO NOT USE ON MARBLE OR ACID SENSITIVE SUBSTRATES.

### PRODUCT CHARACTERISTICS

- **Colour:** Pale pink
- **Odour:** Barely perceptible
- **Form:** Liquid
- **PH:** approx. 2
- **Specific Gravity @ 25°C:** 1.01
- **Application Temperatures:**
  - Minimum +5°C
  - Maximum 30°C
- **Shelf life:** 24 months from the date of manufacture in the original unopened container.

### BENEFITS:

- Easy to use
- Interior and exterior use
- Low odour
- Non fuming

### PRECAUTIONS FOR USE

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).
