RUST REMOVER

Concentrated detergent acid pre-treatment for the removal of rust, metal oxide deposits and sulphate of iron stains.

PRODUCT DESCRIPTION

- Rust Remover is a concentrated detergent/acid pre-treatment for the removal of rust and metal oxide deposits from deteriorated surfaces.
- Ideally suited for the daily cleaning of tiled, porcelain stoneware, granite worktops and marble surfaces.
- Aqueous-based treatment used to prepare stone and concrete surfaces before application of a finishing product.

APPLICATION

“Always test apply on a small hidden portion of the substrate before applying”

- This product is specially designed to remove rust, metal oxide deposits and clean all synthetic and stone surfaces. Shake the container well before use.
- Use sponge or cloth and then leave it to soak, allowing 5-30 minutes to act. When immersing items, allow to soak for 20 minutes, take out the parts, brush and rinse in running water.
- Apply product to the surface using a sponge, moving from bottom to top, agitate with a firm bristle brush then wipe with a cloth or soft wipe. No rinsing required. The surface is ready to be treated or painted as soon as it has been wiped down and allowed to dry.

KEY FEATURES

- Effective against all types of rust and metal oxide deposits
- Ready & easy to use, no need to pH neutralize after rinsing
- Powerful degreasing and etching properties
- Suitable for or all types of stone & concrete
- Does not alter the aesthetic of the treated surface
- Non-hazardous,
- Biodegradable

TECHNICAL DATA

- **Physical State at 20 °C:** Liquid
- **Appearance:** Colourless
- **Odour:** Characteristic
- **pH:** Acidic
- **Solubility in water:** Fully soluble
- **Flash Point [°C]:** Not applicable
- **Packaging:** 5, 20 and 1000 Ltr Units
