

GROUT PROTECTOR

PRODUCT DESCRIPTION

- Impregnating invisible sealer which prevents ingress of most types of surface contamination, including water, oil, dirt and grime to all types of porous tiles, stone and grout.
- Gives long term protection keeping maintenance low allowing for easier cleaning. Ideal for bathrooms, kitchens and patios.

APPLICATION

Always test a small area before proceeding to ensure finished result is acceptable.

- Surface should be clean and dry, free from dust, dirt, oil, any chemicals.
- Shake well before use.
- Apply an even, wet saturated coat at a spread rate of 4-6m² per litre.
- Once the first coat starts to soak in, apply a further wet on wet coat. This method gives deeper penetration into the substrate.
- Avoid runs, drips or puddling by removing excess product from the surface with clean microfibre cloth. DO NOT allow the product to dry in between applications.

CURING

- Water repellence is evident after initial curing but repellency will increase to 100% efficiency over 7 days.

COVERAGE

- Approx. 4 to 6m² per litre depending on porosity of surface.

RECOMMENDATIONS

- Wear protective gloves and appropriate clothing whilst using the product.
- Keep out of reach of children. Do not apply in damp/wet conditions.
- Keep in a dry place between 5°C and 30°C in the original container.

PRECAUTIONS FOR USE

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS)

Important: The content of this documentation is based on our experience of the product. PROTECTiT SP guarantees the quality of its products, but expressly declines any liability in the event of failure by the user to comply with the recommendations and conditions of use of said products, notably but not exclusively in the event of incorrect application, application by unqualified personnel, use of products not compatible with PROTECTiT SP products or bad weather conditions.

KEY FEATURES

- Natural finish
- Non silicone
- For all types of porous tiles & grout
- Restricts fungal and algae growth
- UV Resistant

PRODUCT CHARACTERISTICS

- **Colour:** Colourless
- **Odour:** Barely perceptible
- **Form:** Liquid
- **PH:** 8-9
- **Specific Gravity @ 25°C:** 1.00
- **Application Temperatures:**
 - Minimum +5°C
 - Maximum 30°C
- **Shelf life:** 24 months from the date of manufacture in the original unopened container.
